

WRESA... NOW WHAT?

What can I use it for?

Current Status

- What indicators should I be concerned about?
- How are the metrics for the indicators trending?

[This Photo](#) by Unknown Author is licensed under [CC BY-NC-ND](#)

Development & Maintenance

- The WRESA indicators need to be relevant to your geographic location
- Metrics for the indicators need to be updated and maintained

This Photo by Unknown Author is licensed under [CC BY-SA](https://creativecommons.org/licenses/by-sa/4.0/)

What can it be used for?

- Help to determine the impacts of a proposed use of water
- Assist in decision making for approval of new uses of water
- Prioritization of water use
- The regional assessment and follow up can be used to identify trends and issues (challenges and opportunities) to pay attention to and work on

It's all about the indicators and metrics

2021 WaterSMART grant application is to develop a "dashboard" for the WRESA that stakeholders can customize to meet their own geographic location and circumstances
